

INFORMATION REGARDING THE STATE OF ARIZONA

CONTROLLED SUBSTANCES PRESCRIPTION MONITORING PROGRAM

A.R.S. § 36-2606 requires each medical practitioner who is licensed under Title 32 and who possesses a DEA registration to also possess a current controlled substances prescription monitoring program registration issued by the Board of Pharmacy. There is no fee to the practitioner for this registration. This registration includes: MD, DO, DDS, DMD, DPM, HMD, PA, NP, ND, OD, and DVM.

As a registered medical practitioner you may have access to the controlled substances database giving you a useful tool to help you treat and evaluate your patients. If you choose to use the system, you must complete a database access request form. Once you receive your user name and password, you may access your patient's prescription information from the database.

The CSPMP Registration form is available on the pharmacy board website <http://www.azpharmacy.gov/pmp/faq.asp> (located in the "Forms" section), and then fax or mail
